REQUESTED ITEM: Bunker Gear - Coat, Pants, Suspenders
NEW OR REPLACEMENT: New - 2nd set
ESTIMATED COST: 18,000
DISPOSITION OF CURRENT EQUIPMENT: Destroyed

JUSTIFICATION/COMMENTS:

This is a 5 year program to assist with meeting the requirements of the NFPA Standard for Protective Clothing. This standard requires that a second set of gear be available to the 49 suppression personnel. A grant request was recently submitted to fund this project but was denied. This program will be implemented over a five year period and will be in addition to the current replacement program for bunker gear and other related items. The is a continuation of last year's approved purchase.

FUNDING SOURCE: 302-2201-522.52-04

CAPITAL OUTLAY REQUEST FORM

FY: 14-15
DEPARTMENT NAME: Fire
DEPARTMENT/DIVISION: Suppression
PRIORITY: 2

REQUESTED ITEM: Extrication Power Unit, Tools, and Accessories

NEW OR REPLACEMENT: Replacement

ESTIMATED COST: 21,000

DISPOSITION OF CURRENT EQUIPMENT: Trade In if Possible or Disposed

JUSTIFICATION/COMMENTS: 1 quote must accompany request. Please attach.

The equipment currently being carried has exceeded its normal life and is beginning to see an increase in out of service time and increased repair costs. The extrication equipment requested to be replaced was designed prior to the changes in vehicle construction and is unable to effectively cut through and open the newer vehicles. This is resulting in patients not being extricated from wreckage in a reasonable amount of time. The equipment is needed to maintain our current operational level and provide for effective rescue and extrication responses.

FUNDING SOURCE: 302-2201-522.64-99

CAPITAL OUTLAY REQUEST FORM

FY: 14-15
DEPARTMENT NAME: Fire
DEPARTMENT/DIVISION: Suppression
PRIORITY: 3

REQUESTED ITEM: 3-Thermal Imaging Cameras

NEW OR REPLACEMENT: Replacement

ESTIMATED COST: 20,000

DISPOSITION OF CURRENT EQUIPMENT: Surplused

JUSTIFICATION/COMMENTS: 1 quote must accompany request. Please attach.

The thermal imaging cameras provide personnel with the ability to conduct a more effective search for people trapped in dangerous smoke conditions. The three cameras currently being used are over 10 years old and lack the improvements that have come with the changes in technology and design. The replacement cameras are needed to provide the proper level of search and rescue response for both the public and for firefighters who may become trapped in burning structures.

REQUESTED ITEM: 3-APX6000-800 Portable Radio
NEW OR REPLACEMENT: Replacement
ESTIMATED COST: 12,000
DISPOSITION OF CURRENT EQUIPMENT: Surplused/Destroyed

JUSTIFICATION/COMMENTS:

These portable radios are being requested to replace some of the old non digital 800 spare radios. These radios are used for special events, additional units being placed in service, when a radio is out of service, etc. The older radios can not be programmed for the new digital system and are no longer being manufactured. The radios are required for daily operations.

CAPITAL IMPROVEMENT REQUEST FORM

FY: 17-18

PRIORITY: 1

PROJECT TITLE: SCBA Replacement

PROJECT LOCATION: Citywide

PROJECT DESCRIPTION:

This is a project to replace the existing Self Contained Breathing Apparatus (SCBA) worn by Fire/Rescue personnel while working in hazardous smoke and toxic gas environments. Funds will be used to purchase the SCBA pack, bottles, mask, and other essential related equipment.

JUSTIFICATION/COMMENTS:

The SCBA units currently being used were purchased in 2004 with funds received from the Fire Act Grant. NFPA requires that this equipment meets their standard for SCBA. NFPA standards state that SCBA are considered to be out of compliance if there has been three updates to the standard since the date of purchase. The current SCBA will no longer meet the requirement of the standard in FY 17-18 as dictated by the NFPA. Each apparatus is assigned a specified amount of SCBA and spare bottles. These SCBA units and bottles are an essential part of the Firefighter's personal protective equipment. The equipment is mandated to be worn in any environment where smoke and dangerous gases that are considered to be immediately dangerous to life and health are present .

EXPENDITURE SCHEDULE:

CAPITAL IMPROVEMENT REQUEST FORM

FY: 2014-2015 **PROJECT MGMT:** Public Works - Engineering **PRIORITY:** 1
PROJECT TITLE: Transportation Master Plan Road Improvement Project **PROJECT LOCATION:** City-Wide

PROJECT DESCRIPTION:

The Transportation Master Plan (TMP) is a blueprint for transportation system improvements through 2025 that was approved by City Council on April 20, 2009. The TMP addresses capacity improvements to existing roadway and intersections, as well as, transit, bicycle and pedestrian improvements for inclusion into the Capital Improvement Plan and Capital Improvement Element of the City's Comprehensive Plan. The process for completing the plan included the development of a local transportation model that is based on the Florida Standard Urban Transportation Modeling Structure (FSUTMS) and the Orlando Urban Area Transportation Study (OUATS). The updated model contains revised socioeconomic inputs and a revised roadway network to better replicate conditions within and around the City of Oviedo. The study area for the TMP extends beyond the current City limits to include areas with potential for future annexation as established by the Joint Planning Agreement (JPA) with Seminole County. The future year forecast was projected for year 2025 to provide consistency with the next update to the City's Comprehensive Plan. The City is currently updating the existing Transportation Master Plan to respond to changing opportunities and economic conditions.

JUSTIFICATION/COMMENTS:

The development of the future transportation network recognized the existing physical limitations of the study area, as well as, the existing short comings identified in the existing transportation framework. The top priority

- a) Minimize the need for multi-lane highways by improving connections and maintaining the street grid.
- b) Avoid creating 6-lane highways.
- c) Connect neighborhoods and schools, especially for bicycle and pedestrian modes.
- d) Protect capacity on arterial roadways by establishing and maintaining access management standards.
- e) Encourage joint driveway and shared access connections to reduce curb cuts and median breaks and encourage shared parking.
- f) Encourage the creation of new corridors to distribute traffic and reduce travel times.
- g) Apply traffic calming techniques on local streets to maintain safe speeds and minimize traffic intrusion.
- h) Encourage alternative travel modes by building "complete streets" for automobiles, pedestrians, bicycles and transit.
- i) Provide recreational bicycle facilities to accommodate riders of all ages and skill levels.

Three of the guiding principles, A, B and F, have direct application to developing future roadway alternatives. Principles C and H also have relevance to the transportation master plan projects. The alternatives were also compared to the guiding principles to determine if the projects were consistent with the future vision of the City. The following projects are scheduled subject to available funding:

- **Geneva Drive Extensions/Realignment:** This work includes construction of a new roadway leg off of Geneva Drive that connects directly to CR 419. This project was originally included with the SR 426/CR 419 Phase I Widening Project. Part of the SR 426/CR 419 Phase I Widening Project includes Geneva Drive directly connecting with Railroad St. which eliminates the current connection.
- **Road Extension Preliminary Engineering Reports:** This work includes a technical review of three of the proposed roadway extensions through existing residential areas. Doctor's Drive, East Chapman Rd. and Franklin St. are all recommended roadway extension projects within the current City Transportation Master Plan. The review will include an engineering study to further define the proposed extension alignments and potential right-of-way acquisition requirements.
- **Eastbridge Traffic Signal:** Installation of a traffic signal if/when warranted to provide a safer means of ingress and egress to Eastbridge Dr. and Henson Ct.
- **Mitchell Hammock Rt. Turn Lane at Alafaya Woods Blvd.:** Installation of an east bound turn lane to address safety issues caused by stacking traffic on MHR waiting for Stenstrom Elementary students. In addition to installing the turn lane, the existing ditch will be piped.
- **Norma/Clonts Reconstruction Improvements and Traffic Calming:** Reconstruction of the west side of Clonts Street up to Forest Trail and Norma Ave. from Mitchell Hammock to Clonts St. Reconstruction will include resurfacing and swale improvements on both sides of the road. In addition, construct of a small traffic circle at the intersection of Clonts St. and Lake Jessup.
- **East Franklin Street Connection:** Roadway extension of East Franklin Street from Stephens Avenue through the north side of Round Lake Park connecting to Harrison Street.
- **Lockwood Blvd. Traffic Circle:** Installation of a traffic circle at the intersection of Lockwood Blvd. and Old Lockwood Road to alleviate traffic congestion at peak travel times along Lockwood Blvd.
- **Adaptive Traffic Signalization:** Traffic signal software control system to allow real time assessment and implementation of signal timing along Mitchell Hammock Road. This will enhance traffic flow.

EXPENDITURE SCHEDULE:

CAPITAL IMPROVEMENT REQUEST FORM

FY: 2014-2015

PROJECT MGMT: Public Works - Engineering

PRIORITY: ---

PROJECT TITLE: SR 426/CR 419 Phase II Widening

PROJECT LOCATION: SR 426/CR 419 from Pine Ave to Avenue B

PROJECT DESCRIPTION:

The SR 426/CR 419 Phase II project includes the following improvements:

- Widening SR 426/CR419 to four lanes from Pine Ave. to Avenue B.
- A 22' wide raised median.
- Installation of bike lanes and sidewalks.
- Landscaping and hardscape improvements.

The funding source will be a combination of FDOT (Remaining money from Phase I acquisition will go to early Phase II acquisition), County (2nd and 3rd one cent sales tax), and City (3rd one cent sales tax).

****Please note, this project is being managed by Seminole County.**

JUSTIFICATION/COMMENTS:

The following are justifications for this project:

- Improving the capacity of the roads is necessary to improve traffic flow and accommodate existing and future traffic demands.
- The project is essential for the redevelopment of the old downtown area and will serve as a catalyst for private investment.
- The project will provide trail connectivity and continuous sidewalk paths that will connect the existing Seminole Cross Trail in the downtown. Improved access points will enhance mobility and pedestrian safety.

CAPITAL IMPROVEMENT REQUEST FORM

FY: 2014-2015 **PROJECT MGMT:** Public Works - Engineering **PRIORITY:** 1

PROJECT TITLE: Road Resurfacing **PROJECT LOCATION:** City-wide
(see attached project listings)

PROJECT DESCRIPTION:

In January 2008, the City's pavement management consultant, Infrastructure Management Systems (IMS), Inc., performed an inventory of the pavement condition for all the streets in the City. Based on this updated conditions information the "Five Year Prioritization List" for road resurfacing was developed. Presently, the overall condition of all of the City's streets was found to be in "good condition".

The pavement condition inventory includes an inspection for each block of roadway, including the measurement of cracks, weathering and other distresses. Based on this evaluation, a numerical value was assigned to each street reflecting the overall condition of the roadway. This index is called the Pavement Condition Index (PCI). The PCI index is an objective rating method based on the measurements of the quantity and severity of each distress type that is present in the pavement. The PCI is a numerical indicator that divides the condition rating into 7 main categories from Excellent to Very Poor.

Therefore, the primary factor in developing the priority list is the PCI. However, this is not the only factor that affects the rankings. Other criteria used to rank the roadways includes the following roadway classification, grouping a number of streets in a particular neighborhood to reduce mobilization costs and take advantage of the bulk rate in paving, patched streets, maintenance reports, etc.

Generally, the City's "Pavement Management Strategies" consists of three categories:

- Preventative Maintenance (micro-surfacing)
- Major Repair (edge mill and overlay, full mill and overlay)
- Reconstruction (full base recycling)

Please note, Fiscal Year 2014-15, has \$100,000 included, in addition to the road resurfacing, for re-evaluation of the rating for each roadway within the City limits.

JUSTIFICATION/COMMENTS:

A regular program of road resurfacing is necessary to prevent City-maintained roads from rapid deterioration. The Pavement Management System is designed to treat arterials and residential streets in the worst conditions along with preventative maintenance measures to treat roadways in good to fair condition. This approach is proven to be the most efficient and cost-effective in pavement management and one which will have a lasting effect on the City.

The strategy is to eliminate the roadways in poor condition. After that time, a moderate preventative maintenance program will be implemented to keep all the roadways in the City in fair or better condition.

EXPENDITURE SCHEDULE:

<u>Project Cost Elements</u>	<u>FY 14-15</u>	<u>FY 15-16</u>	<u>FY 16-17</u>	<u>FY 17-18</u>	<u>FY 18-19</u>	<u>FY 19-20</u>	<u>FY 20-21</u>	<u>FY 21-22</u>	<u>FY 22-23</u>	<u>FY 23-24</u>	<u>TOTAL</u>

CAPITAL IMPROVEMENT REQUEST FORM

FY: 2014-2015 **PROJECT MGMT:** Public Works - Ops **PRIORITY:** 6

PROJECT TITLE: Sidewalk Repair and Connectivity **PROJECT LOCATION:** City Wide

PROJECT DESCRIPTION:

Sidewalk repairs will include to correct trip and fall hazards. This funding is used to augment the efforts of Public Works crews and increase the number of repairs made annually and reduce the number of trip hazards. The construction of new sidewalks as listed below is to connect existing pedestrian walkways and improve connectivity throughout the City. The Lawton Sidewalk item is added to include unforeseen field conditions for the construction of the Lawton Sidewalk Improvement Project. The Sidewalk Trip and Fall Hazard Repairs funded through the 3rd Generation Sales Tax will fund the sidewalk crews plus provide \$100,000 for concrete material. This is pending the voters approval of the 3rd Generation Sales Tax.

JUSTIFICATION/COMMENTS:

Sidewalk repairs are essential for pedestrian safety. The connectivity of sidewalks is to ensure continuous pedestrian corridors in areas of the city that are already developed. The identified projects are listed as high pedestrian areas or have been requested by area residents.

EXPENDITURE SCHEDULE:

EMENT REQUEST FORM

FY: 2014-2015 **PROJECT MGMT:** Public Works - Eng. **PRIORITY:** 9

PROJECT TITLE: Mitchell Hammock Road Corridor Improvements **PROJECT LOCATION:** Mitchell Hammock Rd. - CR 426 to Lockwood Blvd.

PROJECT DESCRIPTION:
 Mitchell Hammock Road Hardscape/Landscape Improvements will include hardscape amenities and landscaping along Mitchell Hammock Road. More specifically, amenities will include street lighting, intersection upgrades to include painting the mast arms and poles black, adding decorative bases, mounting luminaries, adding textured asphalt for the crosswalks, etc. Landscaping will be designed to beautify the corridor. This project will be funded through the 3rd Generation One Cent Sales Tax. This is pending the voters approval of the 3rd Generation Sales Tax.

JUSTIFICATION/COMMENTS:
 Mitchell Hammock Road serves as a gateway to the City. The corridor currently has very minimal street lighting and landscaping. These improvements will provide a safer right of way as well as enhancement to the corridor.

EXPENDITURE SCHEDULE:

CAPITAL IMPROVEMENT REQUEST FORM

FY: 2014-15

PRIORITY: 1

PROJECT TITLE: Desktop Replacement

PROJECT LOCATION: Citywide

PROJECT DESCRIPTION:

In moving forward with replacing PCs and laptops across the city, and in keeping pace with software and application hardware requirements, a 5-year replacement schedule for all desktop PC and laptop units is suggested.

JUSTIFICATION/COMMENTS:

Desktop hardware in use by employees is aging and the replacement schedule for client hardware has been sporadic due to budget constraints over the last few years. As a result client PCs are now unable to keep pace with the ever growing requirements supplied by software and operating system vendors. Current units are 3-6 years old, 80% are out of warranty with the vendors, and most are utilizing Windows XP (out of support since July 13, 2010). A 5-year plan, while certainly the cost effective solution, may leave some units out of specifications for any future software updates.

EXPENDITURE SCHEDULE:

<u>Project Cost Elements</u>	<u>FY 14-15</u>	<u>FY 15-16</u>	<u>FY 16-17</u>	<u>FY 17-18</u>	<u>FY 18-19</u>	<u>FY 19-20</u>	<u>FY 20-21</u>	<u>FY 21-22</u>	<u>FY 22-23</u>	<u>FY 23-24</u>	<u>TOTAL</u>

DEPARTMENT/DIVISION: Facilities Maintenance

PRIORITY:

REQUESTED ITEM: Roof Assessment for City Hall, Riverside Park, Public Safety, & Medical Building

NEW OR REPLACEMENT: New

ESTIMATED COST: 14,940

DISPOSITION OF CURRENT EQUIPMENT:

JUSTIFICATION/COMMENTS:

Based on evaluation these should all be done at the same time to extend life of roof on building.

FUNDING SOURCE: 330-1910-519.46-19

CAPITAL OUTLAY REQUEST FORM

FY: 2015-16
DEPARTMENT NAME: Recreation & Parks
DEPARTMENT/DIVISION: Facilities Maintenance
PRIORITY:

REQUESTED ITEM: Quality Assurance/Quality Control -
Riverside Park Facility

NEW OR REPLACEMENT: New

ESTIMATED COST: 6,953

DISPOSITION OF CURRENT EQUIPMENT:

JUSTIFICATION/COMMENTS:

PURE-Steam Coil Cleaning - Quality Assurance/Quality Control (QA/QC) for Riverside Park

FUNDING SOURCE: 330-1910-519.46-19

CAPITAL OUTLAY REQUEST FORM

FY: 2014-15
DEPARTMENT NAME: Recreation & Parks
DEPARTMENT/DIVISION: Facilities Maintenance
PRIORITY:

REQUESTED ITEM: Flat Roof - Records Building at Water Plant
NEW OR REPLACEMENT: New
ESTIMATED COST: 15,277

DISPOSITION OF CURRENT EQUIPMENT:

JUSTIFICATION/COMMENTS: Remove existing roof system and all penetrations.
Install new EPDM roof system with new penetrations. Warranty 5 years against leak with 20 year material warranty.

FUNDING SOURCE: 330-1910-519.46-19

CAPITAL IMPROVEMENT REQUEST FORM

FY: 18-19

PRIORITY:

PROJECT TITLE: Chiller

PROJECT LOCATION: City Hall

PROJECT DESCRIPTION:

Chiller Replacement

JUSTIFICATION/COMMENTS:

Chiller costs are escalating due to the age and condition of the unit. Age of unit is approximately 15 years.

EXPENDITURE SCHEDULE:

<u>Project Cost Elements</u>	<u>FY 14-15</u>	<u>FY 15-16</u>	<u>FY 16-17</u>	<u>FY 17-18</u>	<u>FY 18-19</u>	<u>FY 19-20</u>	<u>FY 20-21</u>	<u>FY 21-22</u>	<u>FY 22-23</u>	<u>FY 23-24</u>	<u>TOTAL</u>
